

Stormwater pollution: Solutions within reach

Posted by cahnrs.webteam | April 13, 2016

“Stormwater runoff is the No. 1 source of pollution affecting Puget Sound and one-third of Washington state’s waters. Untreated stormwater damages the health of fish, shellfish and marine mammals that depend on clean water.”

-Op-Ed The Seattle Times, April 12, 2016.

The time to act on stormwater pollution is now and WSU is committed to solutions that work.
