control wooly apple aphid.

CHIPPING ASSISTANCE AVAILABLE TO ORCHARDISTS THROUGH THE AIR QUALITY INITIATIVE

Orchardists who are interested in chipping their tree prunings and slash piles are encouraged to apply for the Air Quality Initiative of the Environmental Quality Incentives Program (EQIP). Through this program, USDA's Natural Resources Conservation...

APPLY OILS AS A FOUNDATION FOR EFFECTIVE CODLING MOTH MANAGEMENT

Horticultural oil is important for control of codling moth eggs. All eggs that the materials contact (regardless of egg age) will be affected. Larvae will also be impacted if they try to eat the oil, killing...

COMPOST RECORD KEEPING: WHAT DO I REALLY NEED TO HAVE?

Learn which compost records are required for Food Safety and Modernization Act (FSMA) compliance and understand what you need with regards to audits. An article by Phil Tocco, Michigan State University Extension.
